

ELIASON LAUNCHES NEW STRIP DOOR LINE

11/5/09 - Eliason, a leading manufacturer of commercial double action traffic doors and energy saving products is now offering Energy Saving Strip Doors. Eliason Strip Doors are a great solution for Cold Storage Facilities, Walk-in Coolers and Freezers, Dock Doors, Shipping and Receiving Areas and General Industrial Openings where thermal separation is needed for energy conservation and employee comfort.

Eliason Strip Door consists of clear flexible PVC strips available in both standard and USDA low-temp grades. The strips are available in thickness ranging from .060" to .160" and widths from 6" to 16". Strip overlap is adjustable depending on the application.

The Eliason universal mounting bracket is the perfect choice for most applications because it allows for installation to the header (inside the opening) or on the wall above the opening. Additional mounting options including sliding wall mount brackets and brackets for mounting strip doors behind overhead door tracks. Orange safety strips are available on any Eliason strip door to clearly mark the opening for pedestrians and motorized vehicle operators. Full roll strip material is also available.

Eliason, founded in 1952, manufactures custom commercial traffic doors and energy saving products in our 110,000 sq. ft. facility in Kalamazoo, Michigan. With a lead time of two weeks on our custom products, we are able to quickly serve our valued customers. Eliason's Easy Swing® double action traffic doors and Energy Saving Econo Covers and Strips are widely regarded as "best in class" products and are distributed world wide.
